SPECIALISTS

***PREVENTION AND MANAGEMENT OF STRESS  
FRACTURES IN ATHLETES***

**GIVEN BY DR. CASEY WAGNER**

Sports Medicine Fellowship Trained  
Razorback Team Physician

A one hour lecture presenting the most up-to-date evidence-based research on the risk, prevention, and management of stress fractures for today's athletes.

**Program Objectives:**

1. Identify the most important risk factors for stress fractures
2. Recognize stress injuries based on history and clinical presentation
3. Differentiate between high risk and low risk stress fractures
4. Be able to formulate an initial management plan for stress injuries

**CME/CEU Value: 1.0 for Physicians, Nurses, Nurse Practitioners, Physician Assistants, Medical Assistants, Athletic Trainers, and Physical Therapists**

Advanced Orthopaedic Specialists is approved by the Board of Certification, Inc. to offer continuing education for Certified Athletic Trainers
